PISTOLS AND STONES AT HASTINGS.

The Sanday summer excursion season was duly opened at Hastings, on the Hudson River, yesterday, by two fights, a sanashed face, a voiley of stones, two pistol shots and the breaking of two windows of a New-York Central Railroad passenger train. The Sarsileid Cinb, of this city, largely composed of mechanics, went on an excursion to Hastings. About 500 people started up the Hudson on a chartered steamer and two barges. Liquor, as usual, was sold in such quantities on the way that drunkenness had become one of the features of the day when the pleasure-seekers landed at Hastings about 1 p. m. Many went to the grove to eat and listen to the unusic, while others started for the two hotels near the railroad station. A figat took place in Schurk's Hotel because the proprietor refused to allow his house to be used for improper purposes. Those to whom he made the refusal threatened to "knock him out," and to do various desperate things, but the men were finally thrown out of the house. Liquor selling went on, however, the only pretence to observe the law being the closing of the front door.

The next fighting took place in the street between PISTOLS AND STONES AT HASTINGS.

house. Liquor selling went on, nowever, the only pretence to observe the law being the closing of the iront door.

The next fighting took place in the street between Schurk's Hotel and the railroad station. Patrick Hogan had a row with another man, blows followed, Hogan's antagonist got the worst of the tight, and then the friends of the latter sent word for help, and soon fifteen men went running to the spot in their shirt sleeves, swearing, picking up stones and threatening to kill Hogan. A general fight ensued, women joined in and picked up stones, and pistols were drawn. Two shots were fired, but no one was hit. Hogan was taken away by friends after being severely beaten.

Meanwhile five New-York Central Railroad detectives, who were watching the grove, were

Meanwhile five New-York Central Railroad detectives, who were watching the grove, were sent for, but when they arrived the pienic party had started home. Two of the detectives had been watching two thieves of the "Eleventh-ave, gang," who were in the grove. While all the detectives were there, however, some ruffians hurled stones into a New-York Central Railroad passenger train and smashed two windows. None of the rufflans was caught. The station agent was unable to ascertain that any one on the train was hurt. People at Hastings say that occurrences like those of yesterday are common on Sundays. They attribute them to the liquor which is sold on steamers.

PETTY SQUABBLES OF LABORING MEN.

The Central Labor Union meeting yesterday afterneon at Clarendon Hall was presided over by Michael M. Magrath of the Bakers' Protective Union. A delegate offered a farcical comedy in three acts entitled "Mirth; or, the Obelisk," which he wished to have the union bring out for its benefit. A committee of three was appointed to read the play and decide whether or not it should be accepted. Joseph J. Finnerty reported that the Rev. W. Walton of Williamsburg had promised to preach on the subject of ehort hours on next Sunday night. A committee reported in favor of the rejection of Derrickmen's "scab" Union No. 2. Mr. Keeney, of Bricklayers' Union No. 4, believed in having a sliding scale of admission fees into the union. Some "Scab" bricklayers had been glad to pay \$100 for admittance. PETTY SQUABBLES OF LABORING MEN.

"scab" bricklayers had been glad to pay \$100 for admittance.

"It they were truck-drivers they wouldn't have so many hundred dollars to throw 'around,'" shouted a staiwant truck-driver, "and I object to anybody coming here and boasting of his money and easting slurs on those who haven't any." The discussion grew animated, and the chairman made splinters fly before order was restored.

A resolution was offered denouncing the action of the Troy moulders in arming their "scab" employes and causing the death of a union moulder, and it was agreed that that action "merits for them a sufficiency of hemp attached to a lamp-post to put them out of harm's way."

A communication was received from the Amal-

ficiency of hemp attached to a lamp-post to put
them out of harm's way."

A communication was received from the Amalgamated Trade and Labor Union which referred to
the minds of the members of the Central Labor
Union being already "overburdened by the discussion of dynamite, boycotting the Bridge, the
health of the Queen and the welfare of the Czar of
all the Russias and other kindred labor questions."
One detegate moved to throw the communication
out of the door. He characterized the Amalgamated Union as the Amalgamated Tammany Hall
Union, Mr. McKay, of Typographical Union No.
6, defended the Amalgamated Trade and Labor
Union and predicted that it would live long after
the Central Labor Union was dead.

"A man who believes that is a hypocrite and deserves to be turned out of this body," shouted Mr.
Morrison, of the Advance Labor Club.

Mr. McKay demed that he was a hypocrite. He
said that his opinion of the Amalgamated Trade
and Labor Union was shared by a large majority of
his union. "That is not so, and the gentleman
knows it. He had better speak for himself," shouted
William McCabe, of the Typographical Union. By
this time nearly every delegate was on his feet
shouting at the top of his voice, and the chairman
declared the meeting adjourned. The whole body
then retired to the sidewalk, where the debate was
carried on vigorously.

THE FUNERAL OF HENRY J. SEYMOUR.

THE FUNERAL OF HENRY J. SEYMOUR.

The funeral services of Henry J. Seymour, a retired actor, dramatic writer, theatrical costumer, and Mason, who died suddenly of heart disease at Salmi Morse's theatre on Friday night, took place yesterday at the Masonic Temple. The officers and members of the Ancient and Primitive Rite of Memphis, 33°; the Cernean Supreme Grand Council, 33°, (No. 1); the Cernean Consistory, 32°; and Constitution Lodge, No. 241, of Free Masons, attended.

After Morse's failure to produce the Passion Play, Seymour was employed to furnish the costumes for Morse's next failure, "A Bustle Among the Petticoata." About four years ago he revived the Cernean Supreme Grand Council, which caused considerable feeling in the Scottish Rite Censistory. A consistory was organized, and in less than a year there were nearly 500 Bine Lodge Masons who had taken the thirty-second degree in the Cernean Council. A Supreme Grand Council of the thirty-third degree was organized, and since then lodges of Rose Croix, Jerusalen and others of the intermediate degrees have been estab ished. Another branch of the Cernean has been organized since, which claims that the Seymour Cernean Supreme Grand Connell is not anthoritative.

THE CHURCH TROUBLE AT WEST CHESTER. THE CHURCH TROUBLE AT WEST CHESTER.

The trouble which has been brewing for some time between two factions of the Presbyterian Church at West Chester in regard to the retirement of its pastor, the Rev. R. A. Davidson, now seems in a fair way of settlement. At a meeting on Thursday evening, a new Board of Trustees, more favorable to the caims of the pastor, was elected. Some of the methods employed in carrying online canvass were, however, severely denounced by the so-called "iberal" party of the church. It was expected that Mr. Davidson would speak upon the subject vesterday merning and a large congregation assembled to hear him, but no mention was made of the matto hear him, but no mention was made of the mat-

ter.

Mr. Davidson is forty-three years of age, and has acted as pastor to the church for fifteen years. His opponents say that he is behind the times in his preaching, that he has not succeeded in building up the society and adding to its membership, and that he has lost his hold upon his congregation. The opposition party is led by James Henderson. The whole matter will be brought before the Presbytery on Tuesday, and it will then be decided whether the pastor is to remain or not.

A number of clerg in were on the platform and about 300 people in a different control of the tent. The Rev. BUFFALO LITHIA WATER DISSOLVES STONE IN THE BLADDER. **BUFFALO LITHIA WATER**

RESTORES THE BEDRIDDEN FROM RUBUMATIC STONE IN THE BLADDER.

Case of Dr. B. J. Weistling, Middletown, Penn., stated by himself.
"Experience in its use in stone of the bladder in my own person enables me to attest the wenderful efficacy of the BUFFALO LITHIA WATER

BUFFALO LITHIA WATER
in this painful maindy. After having been long subjected to
sufferings the intensity of which cannot be described. I have,
under the induspee of this water, passed (1 am confluent that
I am within the bounds of truth at least an onnee of calculfurite acid-some of which weighed as much as four grains, atfording heap resolve relief and leaving me in a condition of
comparative case and comfort. I am now passing only occasionally "rail calcult, and they are not attended by the intense suffering which their passage has heretofore occasioned.
"On one occasion I passed 35 calcult in 48 hours. The
appearance of this calculus nuclei indicates unmistaskably, if
this, that they were all component particles of one large calculta, destroyed by the action of the water, by means of soluculta, destroyed by the action of the water, by means of soluculta destroyed by the action of the water, by means of soluculta and disintegration.

"At my advanced period of life (I am 77 years and 6 months
of age) and in my feede general health a surgical operation
was not to be thought of, and the water seems to have accompliance all that such an operation, if successful, could have
done."
